

*My Brightness by Charlie Hall –From the Album – The Bright Sadness*

Well I've been hit from every corner  
And I've been thrown from side to side  
And I'm cracked up on the inside  
So I come to you for life  
You're presence always heals me  
So I want to drink it in  
You know where we're going God  
And you know where I've been

Chorus

And you're love is like a rock  
When I'm spinning  
You're love is like a rock  
When I'm spinning  
And you're love is like a rock  
When I'm spinning around

Yesterday I felt so angry  
And today so insecure  
And I hate it that I wrestle  
With the God that I adore  
You're presence always heals me  
So I want to drink it in  
You know where we're going God  
And you know where I've been

Chorus

And I know less about you  
But my heart loves you so much more  
You're the bright in sadness  
You're my brightness

I wish this thing can pass from me  
But I'm wanting what you want  
So bring me high or bring me low  
Just hold me in your love

Chorus
